

4. Now apply your GPA goals calculations to your current situation!
 - a. Look at your report cards, transcript, or counselor records to find out your own GPA, number of credits completed, and total number of credits you will have by the time you graduate.
 - My GPA:
 - # of credits I have completed:
 - # of total credits I will have by the time I graduate:
 - b. Go online to a) identify a scholarship you might be interested in or a college you want to attend, and b) find out the GPA requirements or GPA average for the scholarship or for college admission. This would be your goal GPA.
 - Scholarship program or college name:

 - GPA requirement or average GPA for admitted students:
 - c. Calculate what GPA you need to achieve going forward to meet your target GPA by graduation. Please show your work or use the Texas Guaranteed GPA calculator.
 - d. In the space below or on a separate paper, submit a paragraph describing the scholarship/college you are targeting, your current GPA, your target GPA, what GPA you need going forward to meet your target GPA, and what steps you will take to improve your GPA.
