GEAR UP University expects every undergraduate to come to school with a laptop. You can choose to buy a computer from us, or you can purchase it elsewhere and bring it to school.

Advantages to purchasing the laptop through the university...

- We use the latest technology—our machines incorporate high-speed processing and high-capacity data storage in a portable unit to meet your needs.
- We load the computer with software that will support your studies.
- Our total campus environment is wireless, which means computing in a classroom, in a dorm room, under a tree, or on a picnic bench (basically wherever students gather).
- This program takes place at the beginning of the fall and spring semesters. If you have any questions, please contact the school's Help Desk.
- You'll be notified by phone when your laptop is available for pickup.
